TABLETOP SCENARIO EXERCISE

John Owen, Executive Director
nextgencybered.org

Texas Advanced Computing Center | October 19, 2026

// WHO WE ARE

NEXT GEN CYBER ED

A Texas 501(c)(3) nonprofit strengthening K-12 cybersecurity education.

Our mission: connect educators and students with trusted resources, hands-on experiences, and industry partnerships.

01

Classroom support

Vetted curriculum connections, professional development, and hands-on activities like today's

02

Student empowerment

Tabletop exercises, mock interviews with industry professionals, and mentorship

03

Industry connections

Mentors, internships, and practitioners in classrooms

// ABOUT ME

JOHN OWEN

Executive Director, Next Gen Cyber Ed

- 15+ years in cybersecurity and data analytics
- Background in digital forensics and mathematics
- Director of Security & Data Analytics, Fulcrum Technology Solutions: security operations and detection engineering
- Started NGCE to narrow the gap between cybersecurity education and industry
- Part-time rally driver

NEXT GEN CYBER ED

PRAXIS
CYBERSECURITY TABLETOP EXERCISES

BUILT FOR K–12 CLASSROOMS

- Realistic cyber incident scenarios written for students, organized by grade band
- Players step into a role, work through an unfolding situation, and make decisions as it develops
- Students join from any web browser. No installs, no lab setup.
- Built around discussion, judgment, and teamwork, not just technical skill
- Facilitator kits included: learning objectives, key reasoning points, and debrief questions

Request access for your school or district **nextgencybered.org/praxis-early-access**

NEXT GEN CYBER ED

// TODAY'S EXERCISE

HER VOICE, NOT HER WORDS

[GRADE BAND :: 10-12]

HOW IT WORKS

01 Play individually on your own device

02 The situation unfolds in stages

03 Each stage ends in a vote

04 Talk it through with colleagues while voting

05 No perfect answers, only tradeoffs

YOUR ROLE

Campus Educator, Cedar Bluff High

Fictional Cedar Bluff ISD, Texas

Something is spreading through your students' group chats. How you respond is up to you.

Notice the role. Today Praxis casts you as an educator. The same platform puts students into whatever role a scenario calls for.

// GROUND RULES

BEFORE WE START

01 Stay in the scenario. Treat it as real.

02 Decide with the information you have. You won't have all of it.

03 Use the voting periods. Your neighbors may see something you missed.

04 Classroom questions? Hold them for the debrief.

AT 2:00

SWOT debrief on the exercise and how it would work with your students

LET'S GO.

NEXT GEN CYBER 20

/ / BRING PRAXIS TO YOUR SCHOOL

REQUEST ACCESS

Register your school or district for access to Praxis scenarios and facilitator kits.
